*Built-in for you!*

**Secure and Affordable.**

Thanks to Panora Telco, having a smart, secure home is now affordable. Using your, Smartphone, Tablet, or PC you can:

- Control temperature, power, and security, including remote door locks
- Monitor motion, temperature, flood water, and energy use
- Receive emails or text alerts
- View live video camera feeds

**Monitor or control  
your home from  
any Internet  
connected device:  
computer, tablet or  
smartphone!**

*Smart Home sensors, devices, locks, lights & energy management*

**Motion/Temperature Sensors**

Indicates motion coming into a designated area. The sensor provides temperature reading for location.

**Smart Thermostat**

Replace your current thermostat with one that provides remote monitoring and control of most heating and AC units

**Wireless Door/Windows Sensors**

Sensors are slim and small and don't detract from your home's cosmetic appeal. Reliable contacts help you avoid false alarms.

**Appliance Outlet Control**

Control a lamp, appliance, or other electrical device with a simple on/off switch or dimmer option. Plugs into standard 110v outlet.

**Temperature/Humidity Sensors**

Protect your home by monitoring the temperature and humidity levels throughout your home.

**Floodwater Detection**

Designed for areas suspect to water leaks, flooding or overflows. If prong sensors detect liquid, an alert will be sent.

**Wireless Smart Locks**

Get notified when your locks open and close. Remotely lock and unlock your doors. Set access codes and know who comes/goes.

**Wireless Key Chain Fobs**

Multi-functional, sleek, and tough, Smart key fobs give you control over locks, doors, and lighting.

**Wireless Loud Siren/Flashing Red Light**

This combination of extreme sound and light is designed to get attention. It is a low-cost way to keep your home secure.

**Live and Snapshot IP Camera**

This one megapixel camera is activated based on motion or a door opening. It will send you a snapshot when it is motion triggered.

**Professional Quality IP Camera**

This two megapixel indoor/outdoor provides complete surveillance, inside or outside your home. Know and see!

**Garage Door Open/Close Sensor**

Get rid of that nagging worry. Determine whether you left the garage door open when you left the home.
